

METHOD, SYSTEM, AND PROGRAM FOR IMPLEMENTING
RETENTION POLICIES TO ARCHIVE RECORDS

ABSTRACT

5 Provided are a method, system, and program for receiving a request to remove a
record. A determination is made as to whether a state associated with the record includes
at least one hold state and whether the state associated with the record includes at least a
retention period that has not expired. The request to remove the record is denied in
response to determining that the state associated with the record includes at least one of at
least one hold state and one retention period that has not expired.
